Full job description

Your new company

You will be working in the recycling industry carrying out maintenance duties on heavy industrial mobile and fixed plant machinery across multiple sites primarily based in the Western Sydney area. This is an excellent opportunity to join a growing business, with flexible hours and work vehicle provided.

Your new role

The Plant Fitter is responsible for maintaining mobile and fixed plant equipment by completing inspections and preventative maintenance requirements. In addition to this your responsibilities will be:

- Daily plant pre checks and inspections
- Regular plant inspections throughout the shift
- Preventive maintenance checks on equipment
- Break downs, fault finding and fixing faults
- Conducting inspections and diagnostic tests and identifying worn and damaged parts
- Correct plant & equipment defects
- Performance tests, adjusting controls and systems
- Maintain plant & equipment records
- Create operating instructions, troubleshoot breakdowns, maintain supplies, perform preventive maintenance, call for repairs

What you'll need to succeed

You will have worked as a Maintenance Fitter previously and will be able to pull on your experience to work autonomously within this role. You will also have the following:

- Mechanical Trade Certificate (Plant & Machinery) or similar qualification
- Experience in preventative and breakdown maintenance
- Strong experience in fault finding and diagnosing
- Experience diagnosing and rectifying mechanical problems
- Your own hand and basic power tools

- Have full Australian working rights and live in Sydney

What you'll get in return

In return you will be rewarded with:

- A permanent position
- Career development
- A vehicle for work use
- Flexible working hours

What you need to do now
