Full job description

The Role

The Business Transformation Section is seeking to fill an APS 5 Business Analyst position with self-motivated, collaborative team member that will join our dynamic and strategic work area. This is an exciting opportunity for anyone seeking to work in an agile, fast paced and challenging environment. This role will provide support to achieve our section goal - Deliver a contemporary vetting capability to protect Australia's national security interest through the provision of a trusted and assured workforce, for the whole of government and industry partners.

As a Business Analyst in our Business Transformation section, you will research, analyse and provide specialist technical support on business processes and systems for the current and future Vetting Systems. You will communicate business analysis findings to senior staff and business partners on complex issues, innovations and improvements. You will be a key member

AUSTRALIAN CITIZEN /
PERMANENT RESIDENT

of our system testing team, through a business lens you will be reviewing systems tests, coordinating user testing and conducting business verification testing. Working in a collaborative team environment, you will share your expertise with others to support team priorities and deliverables in alignment with project goals.

This role presents a unique and exciting opportunity, being a member of an Integrated Project Team (featuring members from different parts of Defence, an Industry Prime Systems Integrator and an Industry Organisational Change partner), responsible for delivering a critical whole of Government ICT transformation.

About our Team

The Australian Government Security Vetting Agency (AGSVA) is the central vetting agency for the Australian Government and conducts security clearance assessments for federal, state and territory agencies. The Business Transformation Section is responsible for the Vetting Transformation project, which will transform AGSVA's current operating model and business processes, supported by a new ICT system. The Section also manages the current eVetting system, reporting, investigating and analysing information from the eVetting system, and business improvement activities.

Our Ideal Candidate

AGSVA's Business Transformation Section is seeking enthusiastic and motivated individuals to join our team. To be successful in the role you will need to be a dynamic team member who can actively build relationships with stakeholders to solve problems and influence change whilst always striving for continuous improvement. You will be able to actively engage in an integrated work environment and be strategic in your thinking and planning.

Ideal candidate will have:

- Excellent time management with the ability to meet deadlines.
- Strong communication skills both written and oral.
- Relevant technical skills and experience including application support, testing and basic architecture/infrastructure knowledge.
- Passion for working in a high performing team, willingness to be collaborative and flexible in a diverse and integrated environment.
- An innovative approach to your work that applies holistic thinking and continuous improvement of business processes; and
- A high degree of self-motivation and a positive attitude to transformation.

Application Closing date: **Sunday the 22th of May 2022**
